December 29, 2008

To the Honorable Mayor, City Commission,
And Citizens of Bay City, Michigan

The comprehensive annual financial report of the City of Bay City, Michigan for the fiscal year ended June 30, 2008, is hereby submitted. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation including disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

REPORTING ENTITY

The financial reporting entity includes all the funds of the primary government of the City of Bay City, Michigan as well as all of its component units. Component units are legally separate entities for which the primary government is financially accountable. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the primary government. The Downtown Management Board, Midland Street Management Board, Columbus Avenue Management Board, Brownfield Redevelopment Authority, P.O.W.E.R. Fund, Economic Development Corporation, all Tax Increment Finance Authorities (TIFA's) and Downtown Development Authorities (DDA's) are reported as discretely presented component units.

ECONOMIC CONDITIONS AND OUTLOOK

Bay City is located at the mouth of the Saginaw Bay in the east central portion of Michigan's Lower Peninsula. The City's rich historical and ethnic heritage began with the lumber boom in the mid-1800s. Two of the City's sawmills were among the three largest sawmills in the world at the time. With the decline of the lumber industry, shipbuilding became the major economic force in the early 1900's. Shipbuilding gave way to the automobile industry as the 20th century progressed. General Motors continues to be the City's principal property taxpayer and the sixth largest employer. Bay Regional Medical Center, a healthcare provider, is now the largest employer in the City.

Honorable Mayor, City Commission,
And Citizens of Bay City, Michigan
December 29, 2008

The City's waterfront location provides citizens with a variety of leisure activities. Boating, fishing and a summer of great events headline the selections. The "River Roar", "Fourth of July Fireworks Festival", and "River of Time", are just a few of the activities that draw several hundred thousand people to the community every year.

As history has shown, economic diversification is necessary to provide constant, quality growth and attract new businesses and individuals to the community. A number of new businesses have recently opened or are in the design and construction phase. Because of the emerging markets, the community has also seen an expansion of its housing market to include a number of new condominium projects. As a result, the future economic outlook for Bay City looks promising with many major developments on the horizon.

MAJOR INITIATIVES

Despite the deteriorating economic climate and recession in the State of Michigan, the City of Bay City and the Mid-Michigan area has made positive steps to better position the City for the future. The following is a sample of economic development success stories, infrastructure improvements and good news that has occurred in the last year.

The private sector has made significant investments in the City. During this budget period, there have been over \$10.5 million in abated (PA 198 industrial tax abatements) industrial investment and over \$1.9 million in abated (PA 146 "OPRA" tax) commercial and residential investment.

The City Commission also reviewed and acted on new incentives to position the community for future growth. On November 5, 2007 the City Commission awarded GM Powertrain a PA 328 abatement which provides 100% abatement on new personal property. This action in turn has lead GM to identify the Bay City Powertrain facility as one of the key suppliers for the new Volt electric vehicle. This vehicle is a high priority transformational project for GM. At this writing, most pundits believe that - absent chapter 7 liquidation - the heavily advertised Volt will be built. This could potentially result in a substantial investment by GM in their Bay City plant.

Another notable incentive and project initiated during this period is City Commission approval of a Commercial Rehabilitation Act (CRA) tax abatement for the redevelopment of the former Mill End building site. Local developers have proposed a multi story mixed use development for this prominent site. Staff worked on the legislation which was signed into law on April 29, 2008 that would facilitate the redevelopment of this high profile corner by essentially providing a limited tax freeze on the new structure. The City Commission approved the creation of the Commercial Redevelopment District on September 8, 2008.

Honorable Mayor, City Commission,
And Citizens of Bay City, Michigan
December 29, 2008

Other notable business announcements include the Governor's visit on June 4, 2008 announcing the TransilT Solutions business in downtown Bay City. Staff worked collaboratively with the Michigan Economic Development Corporation (MEDC) to secure this \$2,200,000 investment in our community.

Carbone of America on Harrison Street continues to grow. Carbone is currently in a \$10 million multi phase expansion of their facility. With the expansion 126 jobs will be retained and approximately 65 new jobs will be created in the community. A Brownfield plan approved on March 17, 2008 for this project will help with the financing of a seven block portion of Harrison Street serving the plant. Further, when completed the City may also receive nearly \$500,000 via a Michigan Business Tax Brownfield Credit to help pay for this project or other local street projects.

Significant private sector construction projects completed include the State Office Building on North Johnson Street for the MDEQ and DLEG. This "green" building resulted in an investment of \$3.1 million and also resulted in a Brownfield plan being approved on July 7, 2008 that will help finance the reconstruction of North Johnson Street from Ketchum to Water Street.

During the last year the City has sold or optioned four parcels including 113 Center Avenue to an adjoining property owner, 2526 Mason to Bay Area Housing, clarified a long standing survey/title issue at Ramsey Park with a neighbor and optioned the former "Odd Fellows Hall" at 1900 Broadway to a developer. All four projects will result in new utilities and tax base to the City when completed.

The philanthropic community has also been generous. An iconic former train station, the Pere Marquette Depot, was successfully restored with the Ribbon Cutting Ceremony on June 16, 2008. This multiyear renovation resulted in an approximate \$6.1 million investment downtown. The City successfully administered a \$707,000 MDOT enhancement grant as part of this project.

A number of significant infrastructure projects were under construction, completed or initiated during this budget year including the following:

Post Office Block Sidewalk & Lighting	\$145,000	Completed July '08
N Henry Street Reconstruction	5,047,000	Completed Nov '08
Independence Bridge Joint Repairs	95,000	Completed Jun '08
Marquette & Truman Intersection & Joint Repairs	498,500	Completed Oct '08
Woodside Avenue Resurfacing	1,200,000	Completed Sep '08
James Clements "T" Hangar Project	442,000	Completed Oct '08
Chip & Seal of 6 Local Streets	12,500	Completed Fall '08

Honorable Mayor, City Commission,
And Citizens of Bay City, Michigan
December 29, 2008

The City has successfully sought and received a number of grants during this period. Successful grant awards include:

Harrison Street	MDOT Category A	\$238,488	Awarded Mar '08
Harrison Street	Brownfield MBT Credit	500,000	B-plan approved Mar '08
Harrison Street	BCATS	600,000	Programmed Oct '08
JC Airport Seaplane	MDOT Aero	32,5000	Awarded Jun '08
Uptown	EPA Environmental Cleanup	200,000	Awarded April '08
Uptown	EPA Planning	Direct	Completed July '08
Bridge Rehab 2011	MDOT Critical Bridge	994,000	Awarded Nov '08
Marquette "S" Curve	MDOT Safety Grant	400,000	Awarded Nov '08
Wenonah Park			
Phase 1	MDNR Trust Fund	500,000	Accepted Nov '07

The City continues to partner with Bay Future Inc. Bay Future and City staff collaborate on initiatives such as the retain GM task force, new Consumers Energy clean coal plant, marketing the Marquette Industrial park and responding to specific developer inquiries.

The City continues its progress toward the redevelopment of the high profile downtown riverfront site commonly known as Uptown. In August of '07 Dow Corning funded a \$20,000 economic impact study of the proposed Maritime Heritage Center to be located on the northern 8 acres of this site. Following that report, the EPA directly contracted a company called Vita Nuova to complete a planning document for the proposed Maritime Heritage Center destination. The public/private partnership with controlling interest in the balance of the property, RiversEdge, is actively reviewing development proposals despite the challenging economic environment.

As usual, the City will be faced with many infrastructure projects in coming years, including street repair and replacement, maintenance of bridges; and storm-sewer and waterline additions/replacement, in order to provide and improve services to citizens and customers. These projects, along with several environmental concerns facing the City, including contamination of the Middlegrounds Landfill, must be addressed with sound planning and good financial management to allow the City to continue providing quality services and to become more progressive and responsive to the needs of the citizens.

FINANCIAL INFORMATION

Internal Control: Management of the City is responsible for establishing and maintaining internal control designed to ensure that the assets of the City are protected from loss, theft or misuse and to provide that adequate accounting data can be compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. We believe the City's internal control adequately safeguards, and provides reasonable assurance of proper recording of financial transactions. Because of inherent limitations in any internal accounting control, errors or irregularities nevertheless may occur and not be detected.

Honorable Mayor, City Commission,
And Citizens of Bay City, Michigan
December 29, 2008

Single Audit: As a recipient of federal financial assistance, the City also is responsible for ensuring that adequate internal control is in place to allow for compliance with applicable laws and regulations related to those programs. Internal control is subject to periodic evaluation by management of the City.

As a part of the City's single audit, tests are conducted to determine the adequacy of internal control, including that portion related to federal financial assistance programs, as well as to determine that the City has complied with applicable laws and regulations.

Budgeting Controls: In addition to internal accounting controls, the City maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Commission. Activities of all governmental and proprietary funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is exercised at the activity level for the General Fund and the fund total level for all other funds. As demonstrated by the statements and schedules included in the financial section of this report, the City continues to meet its responsibility for sound financial management.

General Government Functions: The City provides a full range of services to its citizens. These services include law enforcement, fire protection and protective inspection; sanitation; maintenance of highways, streets and infrastructure; parks and recreational facilities; planning and zoning; other general administrative services; and other services mandated by state law.

Cash Management: Cash temporarily idle during the year was invested through the use of a competitive bid procedure in time deposits, including municipal investment pools, ranging from overnight to medium short-term investments. Longer-term investment periods were utilized by the City to take advantage of higher interest rates. The City's Investment Policy is to minimize credit and market risk while maintaining a competitive yield in its portfolio. The reduction of risk is realized by diversifying the types of securities held. The competitive yield is realized by pooling the investments and varying maturities.

Risk Management: The City carries a variety of insurance coverage. This includes coverage for property (includes buildings, contents and fleet), general liability, public official's liability and employee's liability. The limits of general liability are \$250,000 per occurrence assumed by the City, and up to \$15,000,000 on the excess through external insurers. The City assumes the risk on amounts in excess of \$15,000,000. The City recently hired an external consultant to provide brokerage and risk assessment services and assist the City with its risk management.

Honorable Mayor, City Commission,
And Citizens of Bay City, Michigan
December 29, 2008

Pension and Other Post-Employment Benefits: The City of Bay City currently has three separate pension plans. The defined benefit pension plan provides retirement and disability benefits to all employees, excluding police and fire employees, hired prior to September 1, 1997 unless they have opted to participate in the defined contribution plan. The City participates in an agent multiple-employer plan administered by the Municipal Employees Retirement System of Michigan. Each year, an independent actuary engaged by the pension plan calculates the amount of the annual contribution that the City must make to the pension plan to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. As a matter of policy, the City of Bay City fully funds each year's annual required contribution to the pension plan as determined by the actuary. In addition, beginning in the 2007 fiscal year, the City has made a commitment to contribute an additional amount above its required contribution to further reduce its unfunded liability in fewer years than required by its actuarial report. During the 2008 fiscal year, the City contributed \$2,236,595 as an additional amount above its required contribution.

All City employees with the exception of police officers and fire fighters hired after September 1, 1997 are required to participate in the city's defined contribution plan. This is a single employer defined contribution plan created by the City and administered by the ICMA Retirement Corporation on behalf of MERS. The contribution requirements of the City are established and may be amended by the City Commission.

The City has established a single-employer defined benefit plan for all eligible police officers and firefighters. The System operates under the authority of the City Charter and the assets are administered by the City. The City Commission has the authority to amend and establish benefit provisions.

The City of Bay City also provides post-retirement health benefits for certain retirees and their dependents. As of the end of the current fiscal year, there were 417 retirees eligible to receive these benefits, which are financed on a pay as you go basis. However, the City has established a retiree healthcare trust fund to which it makes an annual contribution to assist with future healthcare costs. During the fiscal year ended June 30, 2008, the City contributed \$580,711 into the healthcare trust fund. As this time, Generally Accepted Accounting Principals (GAAP) do not require governments to report a liability in the financial statements in connection with an employer's obligation to provide these benefits.

Additional information on the City's pension arrangements and post-employment benefits can be found in Note 10 of the financial statements.

Honorable Mayor, City Commission,
And Citizens of Bay City, Michigan
December 29, 2008

Other Information:

Independent Audit: State statutes require an annual audit by independent certified public accountants. The City Commission selected the accounting firm of Rehmann Robson for this purpose. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the federal Single Audit Act Amendments of 1996 and related OMB Circular A-133. The auditors' report on the financial statements and combining and individual fund statements and schedules is included in the financial section of this report.

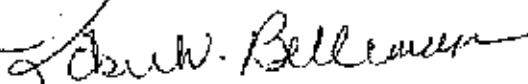

Awards: The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Bay City for its comprehensive annual financial report for the fiscal year ended June 30, 2007. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments: The completion of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the entire Fiscal Services Division. We would like to express our appreciation to all members of the departments who assisted and contributed to its preparation, especially Angela Willsie, Staff Accountant, for her assistance throughout the audit and with the preparation of this report.

Finally, we would like to thank the Mayor, members of the City Commission, and the various City departments for their leadership and support in planning and conducting the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

Robert V. Belleman
City Manager

INDEPENDENT AUDITORS' REPORT

December 29, 2008

To the Honorable Mayor
and City Commission
City of Bay City, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the ***City of Bay City, Michigan***, as of and for the year ended June 30, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the ***City of Bay City Michigan***'s management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the ***City of Bay City, Michigan***, as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparisons of the General Fund and major special revenue funds for the year then ended in conformity with accounting principles general accepted in the United States of America.

As discussed in Note 11, beginning net assets for the Governmental Activities and Component Units have been restated.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2008, on our consideration of the ***City of Bay City, Michigan***'s internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and the historical pension and healthcare supplementary information listed in the table of contents, are not required parts of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the ***City of Bay City, Michigan***'s basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical tables are presented for purposes of additional analysis and also are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules and schedule of expenditure of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

A handwritten signature in cursive script, reading "Lehmann Johnson".

CITY OF BAY CITY, MICHIGAN
MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of Bay City's financial performance provides an overview of the City's financial activities for the fiscal year ended June 30, 2008. Please read it in conjunction with the City's financial statements.

Financial Highlights

As discussed in further detail in this discussion and analysis, the following represents the most significant financial highlights for the year ended June 30, 2008:

- The assets of the City of Bay City exceeded its liabilities at the close of the most recent fiscal year by \$195,956,770 (net assets). Of this amount, \$45,670,177 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- Total net assets related to the City's governmental activities increased by \$917,289 from the previous year and the business-type activities net assets increased by \$795,522. The net assets of the component units experienced a decrease of \$1,811,216.
- At the close of the fiscal year, the City of Bay City's governmental funds reported combined ending fund balances of \$9,965,547, an increase of \$503,454 in comparison with the prior year. All but \$378,826 of this total amount is available for spending at the government's discretion (unreserved fund balance).
- At the end of the fiscal year, unreserved fund balance for the General Fund was \$4,878,007 or about 21.8% of the total General Fund expenditures.
- The City of Bay City's total debt increased by \$9,824,580, or 11.5%, during the fiscal year.
- The City continues its commitment to improving its road infrastructure and this year spent \$1,620,603 on new road construction and resurfacing and an additional \$574,452 on new sidewalks. These projects were primarily funded by grant dollars.
- State-shared revenue, the City's second largest revenue source in the general fund, decreased for the seventh consecutive year. The State of Michigan reduced the City's allocation by \$215,780 from the amount received in the previous fiscal year. The City anticipated a reduction and responded with careful review and control of expenditures such as reducing capital expenditures and leaving vacant positions unfilled in the finance, public safety and parks and recreations departments. As a result, there was an increase of \$133,956 in the fund balance of the general fund.

CITY OF BAY CITY, MICHIGAN MANAGEMENT'S DISCUSSION AND ANALYSIS

Using this Annual Report

This annual report consists of a series of financial statements. The *Statement of Net Assets* and the *Statement of Activities* provide information about the activities of the City of Bay City as a whole and present a longer-term view of the City's finances. This longer-term view uses the accrual basis of accounting to measure the cost of providing services during the current year, and whether the taxpayers have funded the full cost of providing government services.

The *Statement of Net Assets* and the *Statement of Activities* distinguish functions of the City that are primarily supported by taxes and intergovernmental revenues from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works, community and economic development, and recreation and culture. The business-type activities of the City include electric, water, and sewer services, as well as municipal airport, cemetery, and marina facilities.

The government-wide financial statements include not only the City itself (known as the primary government), but also the component units which are legally separate authorities for which the City is financially accountable. Financial information for the component units is reported separately from the financial information presented for the primary government itself.

Complete financial statements for the Downtown Management Board may be obtained at their administrative offices located at Commerce One, 901 Saginaw Street, Bay City, Michigan 48708. Separate financial statements for the remaining component units are not prepared.

The Fund financial statements present a short-term view. They tell us how the taxpayers' resources were spent during the year, as well as how much is available for future spending. Fund financial statements also report the City's operations in more detail than the government-wide financial statements by providing information about the City's most significant funds. The fund financial statements can be divided into three categories including governmental funds, proprietary funds, and fiduciary funds. The fiduciary fund statements provide information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the government.

The City as a Whole

For the fiscal year ended June 30, 2008, assets exceeded liabilities by \$195,956,770. By far the largest portion of the City's net assets (69 percent) reflects its investment in capital assets (i.e. land, buildings, vehicles, equipment and infrastructure), less any related debt used to acquire those assets that is still outstanding. The City uses these assets to provide services to citizens, consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of

CITY OF BAY CITY, MICHIGAN
MANAGEMENT'S DISCUSSION AND ANALYSIS

related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following table shows, in a condensed format, the net assets as of June 30, 2008 (in thousands of dollars):

	Governmental Activities		Business-type Activities		Total	
	<u>2007</u>	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>	<u>2008</u>
Current and other assets	\$ 20,785	\$ 22,717	\$ 35,987	\$ 50,974	\$ 56,772	\$ 73,691
Capital assets	<u>78,544</u>	<u>76,420</u>	<u>153,831</u>	<u>150,004</u>	<u>232,375</u>	<u>226,424</u>
Total assets	99,329	99,137	189,818	200,978	289,147	300,115
Current and other liabilities	3,794	3,360	2,650	5,226	6,444	8,586
Long-term liabilities	<u>20,857</u>	<u>22,894</u>	<u>64,890</u>	<u>72,678</u>	<u>85,747</u>	<u>95,572</u>
Total liabilities	24,651	26,254	67,540	77,904	92,191	104,158
Net Assets:						
Invested in capital assets –						
Net of related debt	60,760	68,777	90,735	79,329	151,495	148,106
Restricted	1,833	2,180	-	-	1,833	2,180
Unrestricted	<u>12,085</u>	<u>1,926</u>	<u>31,543</u>	<u>43,745</u>	<u>43,628</u>	<u>45,671</u>
Total net assets	<u>\$ 74,678</u>	<u>\$ 72,883</u>	<u>\$ 122,278</u>	<u>\$ 123,074</u>	<u>\$ 196,956</u>	<u>\$ 195,957</u>

The City's governmental activities net assets increased by \$917,289 while the net assets of its business-type activities increased by \$795,522. The change in net assets for the governmental activities was primarily due to a restatement of net assets of the previous year due to a reclassification of debt from a component unit to the governmental activities, thus causing the beginning net assets to be decreased by \$2,712,500. The increase in net assets of the business type activities is attributable to an increase in operating revenues in the Sewer Fund while operating expenses remained flat, as well as an increase in net pension asset in all funds. As a result, the combined net assets increased by \$1,712,811 from \$194,243,959, as restated in 2007, to \$195,956,770 in 2008.

As we look at the governmental activities separately from the business-type activities, we can see that the current level of unrestricted net assets – the part of net assets that may be used to meet the government's ongoing obligations to citizens and creditors – is \$1,925,635, or about 6% of the governmental activities expenditures. An additional portion of the City's net assets of its governmental activities, \$2,180,059 or approximately 3%, represents resources that are subject to external restrictions on how they may be used.

Governmental Activities

The City's total governmental net assets increased by \$917,289. Key elements of this increase are as follows:

- Expenses increased less than anticipated in the Healthcare and Liability/Property Self Insurance Internal Service Funds. The portion allocated to the governmental activities assisted in the increase in net assets.
- Reduction in the workforce.
- Closer management of resources to better control costs.

Business-Type Activities

The City's business-type activities consist of the Electric, Water, Sewer, Airport, Cemetery, and Marina Funds. These services are provided to all City residents. Electrical services also extend to numerous customers outside of the City limits. In addition to City residents, the City provides water to residents of the City of Essexville, Hampton Township, and Bay County. The City provides sewage treatment through a City-owned sewage treatment plant. These services are also extended to Hampton Township and portions of Bangor, Monitor, and Portsmouth Townships. The business-type activities saw an overall increase in net assets of \$795,522 due primarily to the following:

- The Sewer Fund experienced the largest increase in net assets of the three utilities in the amount of \$321,694. While operating expenses remained flat, operating revenues increased by approximately 5%.
- The net assets of the James Clements Airport Fund increased by \$379,948 due to the receipt of state and federal grants for the construction of additional airplane hangars.
- Expenses increased less than anticipated in the Healthcare and Liability/Property Self Insurance Internal Service Funds. The portion allocated to the business-type activities assisted in the increase in net assets..
- Although the Oakridge Cemetery Fund reported an increase in net assets of \$4,487 and James Clements Airport Fund reported an increase in its net assets of \$379,948, both funds continued to require subsidies from the general fund in the amounts of \$58,062 and \$43,365, respectively, to assist with operating expenses.

The City's Funds

An analysis of the City's major funds begins on page 15, following the government-wide financial statements. The fund financial statements provide detailed information about the most significant funds, not the City as a whole. The City Commission creates funds to help manage monies for specific purposes as well as to show accountability for certain activities, such as a special property tax millage. The City's major governmental funds for 2008 include the General Fund, Major Streets Fund and the Rehabilitation Fund.

The General Fund is the chief operating fund of the City. The most significant source of revenue is property taxes, which generated \$10,513,617 in 2008. The most significant service accounted for in this fund is public safety, which incurred expenses of \$12,039,378 in 2008. Public safety expenditures equate to approximately 54% of the total expenditures and are more than the amount of property taxes generated. At the fiscal year ended June 30, 2008, the unreserved fund balance of the General Fund was \$4,878,007. As a measure of the General Fund's liquidity, it may be useful to compare the unreserved fund balance to total fund expenditures. Unreserved fund balance represents 21.8% of the total General Fund expenditures.

CITY OF BAY CITY, MICHIGAN
MANAGEMENT'S DISCUSSION AND ANALYSIS

The Major Streets Fund accounts for major streets maintenance funds received from the State of Michigan, as well as, property tax and other revenues used to maintain and reconstruct major streets within the City. During the fiscal year ended June 30, 2008, \$1,641,060 was spent on capital outlay for reconstruction and resurfacing streets and an additional \$2,664,159 was spent on preservation and maintenance of existing streets within this fund.

The Rehabilitation Fund is used to account for revenues and expenditures related to providing financing to low and moderate income individuals to assist in home improvement. In the fiscal year ended June 30, 2008, \$587,259 was spent to assist residents of the City with home improvements.

Some notable items in the other governmental activities are:

- The Local Street Fund expended \$1,065,296 to maintain and preserve local streets within the City and ended the year with an unreserved fund balance of \$121,414. This amounts to 11% of annual expenditures within this fund.
- The Building Inspection Fund ended the fiscal year with no fund balance. A General Fund subsidy in the amount of \$50,992 was required to support the operations of this fund.
- The Solid Waste Fund ended the fiscal year with an unreserved fund balance of \$682,733. This is the sixth year since the City went to a fee-based system versus a millage that no General Fund subsidy was required. The Solid Waste Fund paid back all previous subsidies from the General Fund as a result of a resolution passed by the City Commission requiring the reimbursement to occur once the fund became self sufficient.
- The Community Development Block Grant Fund expended \$1,059,524 on economic development activities and an additional \$380,502 on capital outlay.
- The Public Improvement Fund ended the year with an unreserved fund balance of \$956,153. The City Commission approved transfers from the General Fund totaling \$1,047,352 in previous fiscal years in order to accumulate funding for the replacement of the doors and roof on City Hall. Currently, \$799,683 remains designated for this project, which is expected to be completed in the near future.
- The Riverfront Redevelopment Fund expended \$52,024 to complete site improvements on the "Uptown at Rivers Edge" redevelopment project. Development of this site is expected within the next few years.

CITY OF BAY CITY, MICHIGAN MANAGEMENT'S DISCUSSION AND ANALYSIS

General Fund Budgetary Highlights

Over the course of the year, the City amended the budget to take into account events that occurred during the year. The most significant amendments occurred due to the following:

- The Human Resources Department increased their budget by \$61,261 to pay attorney/consultant fees to assist with employment relations, grievance arbitration, and contract negotiations.
- The Engineering Department increased its budget by \$176,000 to replace sidewalks along Washington and Third Streets, adjacent to the U.S. Post Office.
- A transfer to the Local Street Fund was added to the budget, in the amount of \$1,180,000 for the reconstruction of Harrison Street.

The other differences between the original and final amended budget for expenditures were relatively minor.

During the year, actual revenues were less than budgeted revenues by \$245,789, however, actual expenditures were also less than budgetary estimates by \$753,258, and transfers out were less than estimates by \$1,131,041. As a result, the General Fund experienced an increase of \$133,956 in fund balance instead of the budgeted reduction projected in the final amended budget to be \$1,588,283.

Capital Assets and Debt Administration

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2008 amounted to \$226,424,579 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery and equipment, park facilities, roads, sidewalks, and bridges.

Major capital asset events during the fiscal year included the following:

- The Sewer Fund spent \$1,025,314 on various capital projects including \$407,886 to replace the sanitary sewer system associated with the Henry Street reconstruction project.
- The construction phase of the North Henry project was completed with \$919,933 spent during the year and an additional \$700,670 was spent on the Wenona Street project.
- The Water Fund spent \$1,121,752 to complete the water system improvements associated with the Henry Street reconstruction project.
- The Electric Fund completed various capital projects totaling \$1,110,704.

CITY OF BAY CITY, MICHIGAN
MANAGEMENT'S DISCUSSION AND ANALYSIS

- James Clements Airport completed its construction of airplane hangars project totaling \$436,988.
- The Marquette Avenue Streetscape project was completed in the amount of \$234,867.

The investment in capital assets of the component units totals \$5,025,908 as of June 30, 2008. Within the Marquette TIFA Component Unit, the Marquette Drive reconstruction project was completed in the amount of \$325,776.

Additional information on the City's capital assets can be found in Note 5 of this report.

Long-term Debt. In the fiscal year ended June 30, 2008, the City had total outstanding debt of \$95,571,546, which included a current portion of \$9,320,695. Of this amount, \$78,631,966 is backed by the full faith and credit of the City. The remainder of the City's debt represents bonds secured by specific sources (revenue bonds). The long-term debt can be summarized as follows:

	<u>2007</u>	<u>2008</u>
General obligation bonds	\$ 32,152,577	\$ 39,051,780
Revenue bonds	7,115,000	9,545,000
Other notes/leases payable	41,594,757	41,635,614
Compensated absences	<u>4,884,632</u>	<u>5,339,152</u>
Total	<u>\$ 85,746,966</u>	<u>\$ 95,571,546</u>

The City's total debt decreased by \$9,824,580 during the fiscal year. State statute limits the amount of general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation. The current debt limitation for the City is \$74,971,000 which is significantly in excess of the City's outstanding general obligation debt applicable to this limit.

Additional information on the City's long-term debt can be found in Note 8 of this report.

Economic Factors and Next Year's Budgets and Rates

Because of the State of Michigan's economic conditions, state-shared revenues, the second largest source of revenue in the General Fund, continues to be an important factor in the preparation of the City's budget. Additional reductions have been forecast for the next fiscal year. The City also faces a continued rise in healthcare costs. While this year the City's healthcare costs rose about 5% over the previous year, additional increases are expected in the future.

Another issue of concern to the City is the unfunded liability in its defined benefit retirement plan of approximately \$24 million. In the fiscal year ended June 30, 2008, the City contributed an additional \$2.2 million over and above the required contribution of \$2.2 million. The City budgeted an additional contribution in the upcoming fiscal year and intends to continue this trend in future budgets as well. In addition, the City's property taxes are at the limit allowed by Charter of 19 mills, which has been reduced

CITY OF BAY CITY, MICHIGAN
MANAGEMENT'S DISCUSSION AND ANALYSIS

by the Headlee Amendment to 16.9615 mills for general operating in the 2008/2009 budget.

The City's Electric, Water and Sewer Utilities instituted a rate increase in the year ended June 30, 2008. Additional rate increases are anticipated in the next fiscal year as well. These rate increases were necessary as a result of operating cost increases for all of the utilities and to finance debt service on the recently issued debt for both the Water and Wastewater Plant improvements and improvements to the sanitary sewer system, as well as funding to implement an automatic meter reading system for the Water and Electric utilities. All three utilities will be evaluated on a yearly basis to determine the appropriate charges for services reflective of the cost of doing business.

The City's budget for the last several years has limited the amount of capital expenditures in all areas. Many necessary improvements have been delayed and will have to be addressed in the near future. The City remains committed to maintaining and improving its level of service to its citizens and intends to continue to invest in its capital assets. This is one of the many challenges that will need to be addressed in future budgets.

Contacting the City's Management

The financial report is intended to provide our citizens, taxpayers, customers, and investors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have any questions about this report or need additional information, we welcome you to contact the Finance Department, 301 Washington Avenue, Bay City, Michigan 48708.

BASIC FINANCIAL STATEMENTS

The diverse nature of a governmental operation and the necessity of complying with legal provisions require accounting systems unlike those commonly used by commercial enterprises. Rather than establishing a single unified set of accounts for recording and summarizing all financial transactions, the accounts of a governmental unit are organized on the basis of funds.

Government-Wide Financial Statements

The Government-Wide Financial Statements were prepared to allow the user of the financial report to obtain an overview and broad perspective of the City of Bay City's operation and financial position.

The accompanying notes are an integral part of these financial statements.

City of Bay City, Michigan
Reconciliation of the Governmental Funds Balance Sheet
to the Statement of Net Assets
June 30, 2008

Fund balances - total governmental funds	\$	9,965,547
--	----	-----------

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources, and are therefore not reported in the funds.

Add: capital assets		154,554,081
Subtract: accumulated depreciation		(82,886,749)

Net pension assets of governmental activities are not financial resources, and are therefore not reported in the funds.

Add: net pension asset		540,335
------------------------	--	---------

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current-period expenditures. Those assets (such as certain receivables) are offset by deferred revenues in the governmental funds, and thus are not included in fund balance.

Add: deferred receivables		7,436,981
Subtract: allowance for doubtful accounts		(55,749)

Internal service funds are used by management to charge the costs of certain activities, such as insurance and other centralized costs, to individual funds. The assets and liabilities of certain internal service funds are included in governmental activities in the statement of net assets.

Add: net assets of governmental activities accounted for in internal service funds		5,923,099
--	--	-----------

Certain liabilities, such as bonds payable, are not due and payable in the current period, and therefore are not reported in the funds.

Subtract: interest payable		(103,338)
Subtract: bonds payable		(17,126,779)
Subtract: capital leases		(21,260)
Subtract: MEDC loan payable		(170,000)
Subtract: HUD Section 108 loan payable		(2,000,000)
Subtract: compensated absences		(3,173,128)

Net assets of governmental activities	\$	72,883,040
---------------------------------------	----	------------

The accompanying notes are an integral part of these financial statements.

City of Bay City, Michigan
Statement of Revenues, Expenditures and Changes in Fund Balances
Governmental Funds
For the Year Ended June 30, 2008

	General Fund	Major Streets Fund	Rehabilitation Fund	Other Governmental Funds	Total Governmental Funds
Revenues					
Taxes	\$ 10,513,617	\$ 738,806	\$ -	\$ 1,974,259	\$ 13,226,682

Total expenditures	22,341,725	4,376,192	587,259	7,184,682	34,489,858
Excess of revenues over (under) expenditures	355,630	31,193	(252,429)	321,758	456,152
Other financing sources (uses)					
Proceeds from the issuance of capital leases	13,729	-	-	-	13,729
Transfer in	35,000	40,000	365,552	467,099	907,651
Transfer out	(270,403)	-	(113,123)	(490,552)	(874,078)
Total other financing sources (uses)	(221,674)	40,000	252,429	(23,453)	47,302
Changes in fund balances	133,956	71,193	-	298,305	503,454
Fund balances - beginning of year	5,086,051	567,073	-	3,808,969	9,462,093
Fund balances - end of year	\$ 5,220,007	\$ 638,266	\$ -	\$ 4,107,274	\$ 9,965,547

The accompanying notes are an integral part of these financial statements.

City of Bay City, Michigan
Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances
of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2008

Net change in fund balances - total governmental funds	\$ 503,454
--	------------

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Add: capital outlay	2,625,145
Subtract: net value of assets disposed	(353,542)
Subtract: depreciation expense	(3,648,109)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, but rather are deferred to the following fiscal year.

Add: current year change in long-term receivables	81,879
---	--------

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.

Add: principal payments on bonds	1,615,000
Add: principal payments on capital leases	15,186
Subtract: proceeds from the issuance of capital leases	(13,729)
Add: principal payments on MEDC loan	42,500
Add: principal payments on HUD Section 108 loan	500,000
Add: decrease in interest accrued on bonds	3,270
Subtract: deferred bond issuance costs	(35,588)
Subtract: interest expense on zero coupon bond	(1,279,202)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Subtract: increase in the accrual of compensated absences	(240,759)
Add: increase in the net pension asset	137,802

Internal service funds are used by management to charge the costs of certain activities, such as insurance and other centralized costs, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.

Add: net operating income from governmental activities accounted for in internal service funds	695,639
Add: nonoperating revenue recorded in internal service funds	268,343

Change in net assets of governmental activities	\$ <u>917,289</u>
---	-------------------

The accompanying notes are an integral part of these financial statements.

City of Bay City, Michigan
Notes to the Financial Statements
June 30, 2008

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the City of Bay City, Michigan (the "City") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the significant accounting policies used by the City of Bay City:

A. Reporting Entity

The City of Bay City is a municipal corporation governed by an elected mayor and nine-member commission and administered by an appointed City Manager. As required by generally accepted accounting principles, these financial statements present the City and its component units-entities for which the City is considered to be financially accountable.

The discrete component unit columns in the government-wide financial statements represent a total of the City's discrete component units. They are reported in a separate column to emphasize that they are legally separate from the City.

The governing bodies of the Downtown Management Board (DMB), Midland Street Management Board, Columbus Avenue Management Board, P.O.W.E.R. Fund, Economic Development Corporation of the City of Bay City, Brownfield Redevelopment Authority, all the Tax Increment Financing Authorities (TIFA's), and Downtown Development Authorities (DDA's), are all appointed by the City Commission or City Manager. These component units provide economic development and financing services to specific geographic areas within the City. These entities are fiscally dependent on the City because the City Commission is responsible for approving any debt issuances and the annual operating budgets of all component units except for the Downtown Management Board. All discrete component units use governmental fund type accounting. However, full accrual accounting is used for financial statement presentation.

Wenonah Park Properties had been included as a component unit of the City since its inception in 2001. It has been determined that Wenonah Park Properties no longer fits the criteria of a component unit and, therefore, is no longer included in the financial statements of the City of Bay City.

Complete financial statements for the DMB may be obtained at their administrative offices located at Commerce 1, 901 Saginaw Street, Bay City, MI 48708. Separate financial statements for the Midland Street Management Board, Columbus Avenue Management Board, P.O.W.E.R. Fund, Economic Development Corporation of the City of Bay City, Brownfield Redevelopment Authority, TIFA's and DDA's are not prepared.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

The City Manager is responsible for appointing members to the governing Board of the Bay City Housing Commission, but the City's accountability for the organization does not extend beyond making the appointments. Accordingly, this related organization is not included in these financial statements.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its discrete component units. For the most part, the effect of interfund activity has been eliminated from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements, except for agency funds which do not have a measurement focus. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Major Streets Fund is used to account for major streets maintenance funds received from the State of Michigan, as well as, property tax and other revenues used to maintain and reconstruct major streets within the City.

The Rehabilitation Fund is used to account for revenues and expenditures related to providing financing to low and moderate income individuals to assist with home improvements within specific neighborhoods of the City.

The City reports the following major proprietary funds:

The Electric Fund is used to account for all activities relative to providing electric utility services to customers within Bay City and the surrounding townships.

The Water Fund is used to account for all activities relative to the maintenance and operation of the Water Distribution System and Water Treatment Plant.

The Sewer Fund is used to account for all activities relative to the maintenance and operation of the City's sanitary and combination sewers, the Wastewater Treatment Plant, and stormwater system.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Additionally, the City reports the following fund types:

Internal Service Funds account for fleet; equipment purchases and maintenance; employee benefits; information systems; as well as self-insurance and risk management services provided to other departments of the City on a cost reimbursement basis.

The Pension and Other Employees Benefits Trust Fund account for the activities of the Police and Fire Employees' Retirement System, which accumulates resources for pension benefit payments to qualified police and fire members. In addition, the City has two separate Health Care Investment Funds. The first fund accounts for non-public safety retirees and the second fund accounts for police & fire retirees. The purpose of these funds is to accumulate and invest funds to provide for the funding of health care benefits to retired employees of the City and their beneficiaries.

The Agency Funds account for assets held for other governments in an agency capacity, including tax collections and other project funds.

Private sector standards of accounting issued prior to December 1, 1989, are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. The City has elected not to follow private sector standards issued after November 30, 1989 for its business-type activities and enterprise funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's enterprise functions and various other functions of the City. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The City allocates indirect expenses primarily comprised of central governmental services to operating functions and programs benefiting from those services. Central services include City management, centralized budgetary formulation and oversight, accounting, financial reporting, payroll, procurement contracting and oversight, investing and cash management, personnel services, and other central administrative services. Allocations are charged to programs based on use of central services determined by various allocating methodologies. These charges are separately reported in the statement of activities. As a matter of policy, certain functions that use significant central services are not charged for the use of these services. These functions or programs include police, fire, and certain divisions within public services and parks.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Amounts reported as program revenue include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes.

Proprietary Funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the City's proprietary funds relates to charges to customers for sales and services. The Water and Sewer Funds also recognize the portion of tap fees intended to recover current costs (e.g., labor and materials to connect new customers) as operating revenue. The portion intended to recover the cost of the infrastructure is recognized as nonoperating revenue. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

D. Assets, Liabilities, and Net Assets or Fund Equity

Bank Deposits and Investments – The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The Pension Trust Fund is authorized by the State's Pension Investment Act, as amended, to invest in common stocks, real estate, and various other investment instruments, subject to certain limitations.

Investments are reported at fair value. Investment fair values are predominantly determined using quoted market prices.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Receivables and Payables - In general, outstanding balances between funds are reported as “due to/from other funds”. Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “advances to/from other funds.” Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as “internal balances.”

During the course of operations numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as “due from other funds” or “due to other funds” on the governmental funds balance sheet.

Property Taxes – Property taxes are levied each July 1 and December 1 on the assessed valuation of property, as equalized by the State, as of the preceding December 31, the lien date. The levies are considered past due on September 15 and February 15, respectively, at which time applicable penalties and interest are assessed. The City bills and collects its own property taxes and also taxes for the various local governmental units. Collection and remittance for other units are accounted for in the Current Tax Collections Agency Fund. City property tax revenues are recognized when levied to the extent that they result in current receivables.

Inventories and Prepaid Items - Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted Assets - The revenue bonds of the Enterprise Funds require amounts to be set aside for construction, debt service principal and interest, operations and maintenance, and a bond reserve. These amounts have been classified as restricted assets.

Capital Assets - Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Infrastructure is reported retrospectively from 1980, except for right-of-ways, bridges and traffic signals, which are required to be reported despite the date of purchase.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>ASSETS</u>	<u>YEARS</u>
Buildings	50
Land Improvements	50
Machinery and Equipment	5 - 20
Vehicles	3 - 10

The estimated useful lives of infrastructure assets are as follows:

	<u>YEARS</u>
Site Improvements, Streets, Sidewalk, Curbs	20
Bridges	50

Compensated Absences (Vacation and Sick Leave) - It is the City's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. All vacation pay and sick leave are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

City employees earn vacation leave at rates ranging between 12 and 28 days per year depending on their union membership and length of service. All outstanding vacation is payable upon resignation, retirement, or death. Sick pay is accumulated by employees at rates ranging between 6.67 hours to one day per month of employment. Depending on the union contract, some employees earn one additional day if the employee does not use any sick leave days within a three-month period. Outstanding sick pay is payable only upon qualified retirement. The amount paid is one-half of the accumulated sick days ranging from 0 to a maximum of 200 days dependent upon the union contract under which the employee is covered. Employees with over 25 years of service (with the maximum 160 days of sick leave) receive 20 additional days of sick leave pay for each year of service in excess of 25 years but cannot exceed 80 additional days. The maximum number of days an employee may be compensated for cannot exceed 180 days.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Long-Term Obligations - In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund-type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Note 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information – Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental fund types, except capital project funds which are adopted on a project level.

Individual amendments for the year were not material in relation to the original appropriations. Supplemental appropriations were made during the year. Unexpended appropriations lapse at year-end.

Budget appropriations are prepared by the City Manager and authorized by the City Commission on a departmental basis in accordance with sections of the City Charter. Intradepartment budget transfers within the General Fund and budget transfers within all other funds can be approved by the City Manager. All budget amendments and transfers in excess of \$4,500 within a General Fund Department and at the total fund level for all other funds must be approved by the City Commission. Therefore, legal budgetary control is exercised at the activity level for the General Fund and the total fund level for all other funds. The policy limits the aggregate amount of transfers to \$4,500 per fiscal year within a General Fund Department and at the total fund level for all other funds without Commission approval.

Encumbrances – Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the City of Bay City because it is not, at present, considered necessary to assure effective budgetary control or to facilitate effective cash planning and control.

Note 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY-CONTINUED

Excess of Expenditures Over Appropriations in Budgeted Funds – During the year, the City incurred expenditures that were in excess of the amounts budgeted, as follows:

	<u>Amended Budget</u>	<u>Actual</u>	<u>Variance</u>
General Fund:			
General government:			
City Manager	\$ 261,878	\$ 263,953	\$ (2,075)
Assessor	377,456	378,732	(1,276)
City Clerk	287,279	289,228	(1,949)
Payroll/Payables	177,887	183,353	(5,466)

Mid-MI Computer Crime Task Force	-	1,408	(1,408)
Youth Alcohol Enforcement	-	1,577	(1,577)
Deputy Police Chiefs	139,663	140,734	(1,071)
Public works:			
Street Lighting	449,066	463,223	(14,157)
Debt service:			
Principal Retirement	54,320	557,686	(503,366)
Special Revenue Funds:			
Major Street Fund – Capital	194,130	1,641,060	(1,446,930)
Bond Sinking Fund	1,617,850	1,618,525	(675)

Fund Deficits - The City has accumulated a fund deficit in the following component unit:

Allen Healthcare DDA component unit in the amount of \$25,500. The development plan of this component unit states that the amount of tax increment revenues collected on an annual basis will be applied against its debt until it has been paid off. It is estimated that this will occur in fiscal year ending June 30, 2010.

Note 3 - DEPOSITS AND INVESTMENTS

Michigan Compiled Laws, Section 129.91, authorizes local governmental units to make deposits and invest in the accounts of federally insured banks and credit unions that have offices in Michigan. The local unit is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications, which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions, which are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The breakdown between deposits and investments for the City is as follows:

Statement of Net Assets:

	Govern- mental Activities	Business- Type Activities	Fiduciary Funds	Total Primary Government	Component Units	Total
Cash and cash equivalents	\$15,264,481	\$33,839,096	\$ 3,803,127	\$52,906,704	\$ 2,405,050	\$ 55,311,754
Investments	-	-	50,291,045	50,291,045	-	50,291,045
Restricted assets	-	879,215	-	879,215	-	879,215
Total	<u>\$15,264,481</u>	<u>\$34,718,311</u>	<u>\$54,094,172</u>	<u>\$104,076,964</u>	<u>\$ 2,405,050</u>	<u>\$106,482,014</u>

Deposit and Investments:

Bank Deposits (checking, savings, and certificates of deposit)	\$ 17,164,336
Investments (securities, commercial paper, and money market accounts)	<u>89,317,678</u>
Total	<u>\$106,482,014</u>

Custodial Credit Risk – Deposits. For deposits, custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to the government. The City does not require collateralization of deposits. At June 30, 2008, the carrying value of deposits owned by the City was \$14,759,286 and component units was \$2,405,050. Approximately \$200,000 of the City's bank balance and \$100,000 of the component unit bank balance was covered by federal depository insurance. The remaining balance of \$16,864,336 was exposed to custodial credit risk because it was uninsured and uncollateralized.

Custodial Credit Risk – Investments. Following is a summary of the City's investments as of June 30, 2008:

Mutual Funds	\$ 16,153,534
Government securities	13,881,962
Agency obligations	34,662,936
Corporate bonds	4,421,697
Common stock	<u>20,197,549</u>
Total	\$ 89,317,678

Note 3 - DEPOSITS AND INVESTMENTS – CONTINUED

For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the System will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy requires that investment securities be held in third-party safekeeping by a designated institution and that the safekeeping agent follow the procedure of delivery vs. payment. As of June 30, 2008, none of the City's investments, excluding the money market accounts which are not subject to custodial credit risk, were exposed to risk since the securities are held in the City's name by the counter party.

Interest Rate Risk. As of June 30, 2008, maturities of the City's debt securities were as follows:

	Fair Value	Less Than 1	Investment Maturities (In Years)			Credit Rating
			1-5	6-10	More Than 10	
Government Obligations	\$ 7,041,580	\$5,490,755	\$ -	\$ 1,150,582	\$ 400,243	AAA

To the extent possible, the City attempts to match its investments with anticipated cash flow requirements. Short-term funds matched to a specific cash flow requirement shall be invested in securities maturing not more than two (2) years from the date of purchase. Long-term funds (capital, debt services, etc.) matched to a specific cash flow requirement may be invested in securities maturing not more than five (5) years from the date of purchase.

The City's investment policy and the Police & Fire Retirement System's investment policy do not have specific limits on maturities of debt securities as a means of managing its exposure to fair value losses arising from increasing interest rate.

Credit Risk. State law limits investments to specific governmental securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools as identified in the list of authorized investments in the summary of significant accounting policies. The City's investment policy does not have specific limits in excess of state law on investment credit risk. Credit risk ratings, where applicable, have been identified above for the City's investments.

Note 3 - DEPOSITS AND INVESTMENTS – CONTINUED

The Police & Fire Retirement System's investment policy on credit risk for allowable debt securities follows. The credit rating for each investment type is identified in the above table for debt securities held at June 30, 2008. Regarding Core Plus Fixed Income, the System's investment policy allows its investments managers to invest up to 12.5% of the portfolio in non-investment grade securities (BB to CC rated); with at least 80% of the non-investment grade portfolio consisting of BB or B rated securities. The policy also allows investment managers to invest up to 10% of the portfolio in non-U.S. dollar denominated fixed income securities. The minimum credit rating for international fixed income securities is single B at the time of purchase.

Concentration of Credit Risk. The City diversifies its investment portfolio by security type and institution to eliminate potential losses. Individual securities having potential risks shall be limited in size so that default will not exceed the annual income generated from the remainder of the portfolio.

The Police & Fire Retirement System's investments policy limits maturity value that may be invested in American Depositary Receipts to 15% of each equity portfolio. In addition, the System's investment policy limits maturity value that may be invested in U.S. Equities to 5% of the outstanding securities of one issuer.

Note 4 – ACCOUNTS RECEIVABLE AND ALLOWANCES FOR UNCOLLECTIBLES

Receivables in the primary government and component units are as follows:

	Governmental <u>Activities</u>	Business- type <u>Activities</u>	Component <u>Units</u>	<u>Total</u>
Receivables:				
Accounts	\$ 703,961	\$ 7,311,300	\$ 626,804	\$ 8,642,065
Taxes	187,270	134,273	1,545	323,088
Interest	89,663	184,101	13,077	286,841
Intergovernmental	703,203	5,095	25,705	734,003
Notes	<u>7,298,973</u>	<u>-</u>	<u>4,000,000</u>	<u>11,298,973</u>
Gross receivables	8,983,070	7,634,769	4,667,131	21,284,970
Less: Allowance for Uncollectibles	<u>(114,627)</u>	<u>(256,239)</u>	<u>(417,262)</u>	<u>(788,128)</u>
Net total receivables	<u>\$ 8,868,443</u>	<u>\$ 7,378,530</u>	<u>\$ 4,249,869</u>	<u>\$ 20,496,842</u>

The only receivables not expected to be collected within one year are approximately \$7 million and \$4 million of the notes receivable reported in the Rehabilitation Fund and P.O.W.E.R. Fund component unit, respectively.

Governmental funds report deferred revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of deferred revenue are as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Notes and accounts receivable from homeowners expected to be collected over several years	\$ 7,304,671	\$ -
Special assessments (non-current portion)	73,006	-
Delinquent personal property taxes receivable	59,304	-
Grant and categorical aid payment received prior to meeting all eligibility requirements	<u>-</u>	<u>58,888</u>
Total	<u>\$ 7,436,981</u>	<u>\$ 58,888</u>

Depreciation expense was charged to the programs of the primary government as follows:

Governmental activities:

General government	\$ 35,668
Public safety	236,570
Public works	3,032,792
Recreation and cultural	215,514
Economic Development	127,565
Internal Service Fund depreciation is charged to the various function based on their usage of the asset	<u>899,045</u>
Total governmental activities	<u>\$ 4,547,154</u>

Business-type activities:

Electric	2,188,096
Water	1,307,842
Sewer	3,953,243
Other enterprise funds	<u>159,137</u>
Total business-type activities	<u>\$ 7,608,318</u>

Note 6 - INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Outstanding balances between funds are reported in the fund financial statements as “due to/from other funds”. These amounts result from short-term lending from one fund to another. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances”.

The composition of interfund balances is as follows:

	General Fund	Major Streets Fund	Nonmajor Governmental Funds	Water Fund	Internal Service Funds	Total
General Fund	\$ -	\$ 2,575	\$ 50,992	\$ -	\$ 180	\$ 53,747
Major Streets Fund	-	-	-	-	2	2
Nonmajor Governmental Funds	225,356	-	-	-	17	225,373
Electric Fund	1,079,417	-	-	8,338	24	1,087,779
Sewer Fund	-	1,485	-	-	14	1,499
Water Fund	128,345	-	-	-	14	128,359
Internal Service Funds	-	-	-	-	2	2
Total	<u>\$ 1,433,118</u>	<u>\$ 4,060</u>	<u>\$ 50,992</u>	<u>\$ 8,338</u>	<u>\$ 253</u>	<u>\$ 1,496,761</u>

Interfund Transfers:

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; or to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

The composition of interfund transfers is as follows:

	General Fund	Rehabilitation Fund	Nonmajor Governmental Funds	Electric Fund	Sewer Fund	Water Fund	Total
<u>Transfers to:</u>							
General Fund	\$ -	\$ -	\$ -	\$ 3,500	\$ 15,750	\$ 15,750	\$ 35,000

Nonmajor Enterprise Funds	<u>101,427</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>101,427</u>
Total	<u>\$ 270,403</u>	<u>\$ 113,123</u>	<u>\$ 490,552</u>	<u>\$ 103,500</u>	<u>\$ 15,750</u>	<u>\$ 15,750</u>	<u>\$ 1,009,078</u>

Note 7 – CAPITAL LEASES

The City of Bay City has entered into two separate lease agreements as lessee of two copiers, one with Xerox and one with Bank of America. The original amounts of the copiers were \$29,235 and \$13,729 respectively. The remaining balances are \$10,963 for the copier with Xerox and \$10,297 for the copier with Bank of America. Annual lease payments required under the capital leases are as follows:

Fiscal Year <u>End</u>	General <u>Fund</u>
2009	\$ 11,885
2010	8,230
2011	<u>1,145</u>
Total minimum payments due	21,260
Less interest	<u>-</u>
Present value of net minimum leases	<u><u>\$ 21,260</u></u>

Note 8 – LONG-TERM DEBT

The City issues bonds to provide for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the City. City contractual agreements and installment purchase agreements are also general obligations of the government. Revenue bonds involve a pledge of specific income derived from the acquired or constructed assets to pay debt service.

Long-term debt obligation activity can be summarized as follows:

Note 8 – LONG-TERM DEBT - CONTINUED

Governmental Activities:

The variable rate HUD Section 108 note payable and the Michigan Urban Land Assembly Promissory note were previously included within the long-term debt of Wenonah Park Properties Component Unit. Since it has been determined that Wenonah Park Properties should no longer be included as a component unit of the City of Bay City, this debt has now been included within the governmental activities. The debt was originally issued in the City's name.

Defeasance of Debt

On May 23, 2008, the City of Bay City issued \$9,770,000 of Electric Utility System Revenue Refunding and Improvement Bonds with interest rates ranging between 3.5% and 4.5%. The City issued the bonds to advance refund \$5,845,000 of the outstanding series 1997 Electric Utility System Revenue Bonds with interest rates ranging between 5.0% and 5.5%. The City used the net proceeds along with other resources to purchase U.S. government securities. These securities were deposited in an irrevocable trust to provide for all future debt service on the refunded portion of the 1997 series bonds. As a result, that portion of the 1997 series bonds is considered defeased, and the City has removed the liability from its accounts. The outstanding principal of the defeased bonds is \$5,845,000 at June 30, 2008.

Note 8 – LONG-TERM DEBT – CONTINUED

Defeasance of Debt – continued

The advance refunding reduced total debt service payments over the next 5 years by nearly \$80,000. This results in an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$71,864.

Total	<u>\$ 2,357,776</u>	<u>\$ 579,603</u>

Note 9 - RISK MANAGEMENT

The City is exposed to various risks of loss related to claims, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City is self-funded for Liability and Property Insurance, Health and Dental Insurance, and Workers' Compensation.

Liability and Property Insurance

The self-insurance program for liability and property is accounted for in the Liability/Property Self-Insurance Fund (an internal service fund). Presently, the City insures the first \$1,000 on property and 10% of the remaining claim up to \$100,000 of loss and the first \$250,000 for all other claims. The City maintains stop-loss coverage on the excess (up to \$15,000,000) with an external risk management pool. There were no reductions of insurance coverage from the prior year. For the past several years, the City has engaged special legal counsel to assist in the review of liability and property insurance. This review is to ensure adequate coverage and comprehensive pricing. All funds of the City participate in this program and make payments based on estimates of the amounts needed to pay prior year and current year claims and to establish a reserve for losses relating to catastrophes.

Losses, damages, and administrative expenses are all paid from this fund. The claim liability for known claims and incurred but not reported claims is estimated by management and the insurance administrators. Settled claims have not exceeded insurance coverage in any of the past three years.

The changes in the claims liability for the years ended June 30, 2007 and 2008 are as follows:

<u>Fiscal Year</u>	<u>Beginning of Period Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>End of Period Liability</u>
2007	\$ 615,123	\$ 1,096,565	\$ (856,655)	\$ 855,033
2008	855,033	663,085	(981,797)	536,321

Health and Dental Insurance

The self-insurance program for health and dental insurance is accounted for as part of the Benefits Program (an internal service fund). An independent administrator (Blue Cross) is hired to process the daily claims. The City is responsible for individual claims up to \$40,000 and Blue Cross is responsible for paying claims above this amount up to \$5,000,000. There were no reductions of insurance coverage from the prior year. The City is also responsible for paying administrative charges. The revenues for this Fund's operation are reimbursements from various funds and employee payroll withholdings. The liability at the end of the year is based on claims already incurred and reported as provided by Blue Cross and on estimates of incurred but not reported claims as estimated by management. Settled claims have not exceeded insurance coverage in any of the past three years.

Note 9 - RISK MANAGEMENT – CONTINUED

Health and Dental Insurance - continued

The changes in the claims liability for the years ended June 30, 2007 and 2008 are as follows:

<u>Fiscal Year</u>	<u>Beginning of Period Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>End of Period Liability</u>
2007	\$ 503,506	\$ 7,132,972	\$ (7,107,749)	\$ 528,729
2008	528,729	7,443,679	(7,520,545)	451,863

Workers' Compensation

The self-insurance program for workers' compensation is accounted for within the Benefits Program (an internal service fund). An independent administrator is hired to process the daily claims and to perform auditing and management duties. Presently, the City is responsible for individual claims up to \$350,000 for each occurrence. The City maintains stop-loss coverage on the excess (up to \$1,000,000) through a reinsurance policy. All funds of the City participate in this program and make payments based on estimates of the amounts needed to pay prior year and current year claims and to establish a reserve for losses relating to catastrophes. The liability at the end of the year is based on claims already incurred and reported as provided by the administrator and on estimates of incurred but not reported claims as estimated by management. Settled claims have not exceeded insurance coverage in any of the past three years.

The changes in the claims liability for the years ended June 30, 2007 and 2008 are as follows:

<u>Fiscal Year</u>	<u>Beginning of Period Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>End of Period Liability</u>
2007	\$ 343,413	\$ 458,750	\$ (384,094)	\$ 418,069
2008	418,069	497,149	(255,246)	659,972

Note 10 - DEFINED BENEFIT PENSION PLAN AND POST RETIREMENT BENEFITS

Employees' Pension Plans
Defined Benefit Pension Plan

Plan Description - The City's defined benefit pension plan provides retirement and disability benefits, and death benefits to plan members and beneficiaries. The City participates in the Municipal Employees Retirement System of Michigan (MERS), an agent multiple-employer plan administered by the MERS Retirement Board. Act No. 427 of the Public Acts of 1984, as amended, establishes and amends the benefit provisions of the participants in MERS. The Municipal Employees Retirement System of Michigan issues a publicly available financial report that includes financial statements and required supplementary information for MERS. That report may be obtained by writing to the Municipal Employees Retirement System of Michigan, 1134 Municipal Way, Lansing, Michigan 48917 or by calling (800) 767-6377.

Funding Policy - The City is required to contribute at an actuarially determined rate; the current rate contributed on annual covered payroll ranges from 0.0% to 91.24% depending on employee group. Employees are required to contribute 0.0% to 3.0%. The contribution requirements of the City are established and may be amended by the Retirement Board of MERS. The contribution requirements of plan members, if any, are established and may be amended by the City, depending on the MERS contribution program adopted by the City.

Annual Pension Cost – For the year ended June 30, 2008, the City's annual pension cost was \$2,343,934. The contributions made of \$4,464,899 for MERS included the City's required contribution of \$2,228,304 and an additional contribution of \$2,236,595. The required contribution was determined as part of the December 31, 2005 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included (a) a rate of return on the investment of present and future assets of 8.0%, (b) projected salary increases of 4.5% per year compounded annually, attributable to inflation, and (c) additional projected salary increase of 4.50% to 12.90% per year, depending on age, attributable to seniority/merit. The actuarial value of MERS assets was determined on the basis of a valuation method that assumes the fund earns the expected rate of return, and includes an adjustment to reflect fair value. The City's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at December 31, 2007, the date of the latest actuarial valuation, was 18 years.

Fiscal Year <u>Ending</u>	Annual Pension Cost <u>(APC)</u>	Annual Required Contribution <u>(ARC)</u>	Percentage of ARC <u>Contributed</u>	Net Pension Obligation <u>(Asset)</u>

Police Officers and Firefighters

Description - The City has provided a single-employer defined benefit pension plan for all eligible police officers and firefighters, which assets are included in the Bay City Police and Fire Retirement System, administered by the City. The System operates under the authority of the City Charter. The City Commission has the authority to amend and establish benefit provisions.

The City issues a publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the City of Bay City, 301 Washington Ave., Bay City, MI 48708.

All certified police officers and firefighters are eligible to participate in the System. All participants who retire at age 55 with 10 years of service or with 25 years of service regardless of age are entitled to a regular retirement benefit, payable monthly, of total service times 2.5% (for eligible employees retiring with less than 25 years of credited service) or 2.8% (for eligible employees retiring with 25 years or more of credited service) of the final average salary. The final average salary is determined as the highest 3 consecutive years of the last 10 years of average monthly pay. The plan also provides death and disability benefits.

Note 10 - DEFINED BENEFIT PENSION PLAN AND POST RETIREMENT BENEFITS – CONTINUED

Basis of Accounting – The financial statements of the Bay City Police and Fire Retirement System are prepared on the accrual basis of accounting. Plan member contributions are recognized in the period they are due. The City's contributions to the System are recognized when due and they have made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the System.

Valuation of Investments - Marketable securities are stated at aggregate fair value. Securities which are traded on a national securities exchange are valued at the last reported sales price on the last business day of the System's year. Investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the last reported bid price. The difference between aggregate fair value and the cost of investments along with realized gains and losses on the sale of investments are reflected in the Statement of Changes in Plan Net Assets as part of investment income.

Funding Policy - All plan members are required to contribute 8% of their annual salary to the System. The City is required to contribute the remaining amounts necessary to fund the System, based upon actuarial valuations as required by State statute. The current combined rate is 26.16% of covered payroll. Contributions are established and may be amended by the City Commission.

For the year ended June 30, 2008, the City's annual pension cost of \$1,651,747 for the Police and Fire Retirement System was equal to the City's required and actual contributions. The annual required contribution for the current year was determined as part of the annual actuarial valuation of the plan as of June 30, 2006 using the individual attained age normal cost actuarial cost method. The actuarial assumptions included (a) a 7.5% investment rate of return (net of administrative expenses) and (b) projected salary increases ranging from 6% to 49% per year. Both (a) and (b) included an inflation component of 5%. The assumptions included cost-of-living adjustments ranging from 4.0% to 5.0% after 5, 10, and 15 years payable to certain eligible members. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the fair value of investments over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The amortization period at June 30, 2007, the date of the latest actuarial valuation, was 30 years for all groups. The City Commission has the authority to amend and establish benefit provisions, as well as contribution rates.

Note 10 - DEFINED BENEFIT PENSION PLAN AND POST RETIREMENT BENEFITS – CONTINUED

Concentrations

As of June 30, 2008, there were no investments with a fair value that represents 5% or more of the System's net assets. However, amounts invested in a separate mutual fund represent 22% of the System's total assets at June 30, 2008.

Trend Information

Trend information gives an indication of the System's progress in accumulating sufficient assets to pay benefits when due. Selected three-year trend information is presented as follows:

Fiscal Year	Annual Pension Cost (APC)	Annual Required Contribution (ARC)	Percentage of ARC Contributed	Net Pension Obligation (Asset)
6/30/06	\$ 1,516,565	\$ 1,516,565	100%	\$ -
6/30/07	2,123,900	1,635,150	130%	(488,750)
6/30/08	1,651,747	1,651,747	100%	-

Defined Contribution Pension Plan

The City of Bay City Employees Defined Contribution Pension Plan is a single employer defined contribution pension plan created by the City and administered by the ICMA Retirement Corporation. The City is responsible for establishing and amending all provisions of the Plan. All City employees with the exception of police officers and firefighters hired after September 1, 1997 are required to participate. A defined contribution pension plan provides pension benefits in return for services rendered, an individual account for each participant and specifies how contributions to the individual's account are to be determined instead of specifying the amount of benefits the individual is to receive. Under the defined contribution pension plan, the benefits a participant will receive depend solely on the amount contributed to the participant's account. All returns earned on investments of these contributions are allocated to such participant's account.

The contribution requirements of the City are established and may be amended by the City Commission. Currently, there are two plans available to the employees. Plan A offers the employee the option of contributing 0.0% and requires a 5.0% contribution by the City. There is immediate vesting with Plan A. Plan B allows the employee to contribute 3.0% while the City contributes 8.5%. With Plan B, the employee is 50.0% vested after two years and 100.0% vested after four years. For the fiscal year ended June 30, 2008, the City's required and actual contributions amounted to \$580,718. Employees made contributions amounting to \$195,476.

Note 10 - DEFINED BENEFIT PENSION PLAN AND POST RETIREMENT BENEFITS – CONTINUED

Postretirement Healthcare

As authorized by the City Commission, the City has elected to provide post-retirement healthcare benefits to certain retirees and their beneficiaries. Substantially all of the City's employees become eligible for post-retirement health care benefits if they reach normal retirement age and are eligible for retirement benefits from the City. However, depending on the union contract, some employees hired after July 1, 2007 are not eligible for City provided healthcare benefits upon retirement. Instead the City has established a Retirement Health Savings (RHS) Plan in which the City contributes 6% of their salary on an annual basis. The benefits a participant will receive within the RHS plan depend solely on the amount contributed to each participant's account and the returns earned on the investments of those contributions. There are currently no employees covered by RHS plan.

Currently, 417 retirees are eligible to receive healthcare benefits. The City pays the full cost of coverage for these benefits. The cost of retiree health care benefits is recognized as an expense as claims are paid. Most retirees are currently not required to contribute. However, depending upon the union contract under which they retire, recent retirees shall pay a portion of the premium contributions on a monthly basis based on the subscription rates provided by Blue Cross/Blue Shield. The retiree's portion ranges from 0% to 50% depending upon the bargaining unit from which the individual retired. The City's costs for retiree healthcare for the year ended June 30, 2008, was \$4,116,853.

The present value of all benefits expected to be paid to current plan members as of December 31, 2006, the most recent actuarial report, is \$149,943,061. The actuarial accrued liability, which is the portion of the \$149,943,061 attributable to service accrued by plan members as of December 31, 2006, is \$126,498,186. As of December 31, 2006, there is \$2,999,854 in valuation assets available to offset the liabilities of the plan. The funded status of the plan, which is the ratio of plan assets to actuarial accrued liability, as of December 31, 2006 is 2.4%. During the fiscal year ended June 30, 2008, the City contributed an additional \$580,711 to its healthcare trust funds bringing the total assets to \$3,966,853.

The funding status of the City's other post employment benefits (retiree healthcare) as of the most recent actuarial date is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) Entry Age (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b-a)/c)
12/31/06	\$ 2,999,854	\$ 126,498,186	\$ 123,498,332	2.4%	n/a	n/a

Note 10 - DEFINED BENEFIT PENSION PLAN AND POST RETIREMENT BENEFITS – CONTINUED

The City will be required to make the annual required contribution as determined by the actuarial report beginning in fiscal year ended June 30, 2009.

Membership of each plan consisted of the following at December 31, 2006, the date of the latest actuarial valuation:

Retiree and beneficiaries receiving benefits	421
Active plan members	<u>372</u>
Total	<u>793</u>

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrences of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedules of funding progress, presented as required supplementary information following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Additional information as of the latest valuation follows:

Valuation date	12/31/06
Actuarial cost method	Entry age
Amortization method	Level percentage of pay, open
Remaining amortization period	30 years
Asset valuation method	5-year smoothed market
Actuarial assumptions:	
Investment rate of return	6%
Healthcare cost trend rate	11.5% Initial 4.5% Ultimate

Note 11 - PRIOR PERIOD ADJUSTMENTS

Governmental Activities

In the previous year, the variable rate HUD Section 108 note payable in the amount of \$2,500,000 and the 0.0% Michigan Urban Land Assembly Promissory note payable in the amount of \$212,500 were included in the liabilities of Wenonah Park Properties component unit. Since it has been determined that Wenonah Park Properties should no longer be included as a component unit of the City of Bay City, this debt has now been included within the governmental activities, as the debt was originally issued in the City's name. As a result, the beginning net assets were decreased by \$2,712,500.

Component Units

In the Fiscal Year Ended June 30, 2007, the City of Bay City included Wenonah Park Properties as a component unit. It has now been determined that Wenonah Park Properties no longer meets the criteria to be included as a component unit of the City. As a result, it was removed and the beginning net assets were decreased by \$7,879,146.

Note 12 - COMMITMENTS AND CONTINGENT LIABILITIES

Environmental

Various properties owned by the City are subject to environmental clean-up. The sites include property at the northwest corner of Water Street and Lafayette Avenue, underground fuel storage tanks at the City Service Building (DPW garage), the former Surath scrap yard, which was acquired by condemnation of the construction of Liberty Bridge, the former Bay Aggregates/Industrial Brownhoist property (commonly referred to as Uptown at RiversEdge), Water Street Substation (formerly Consumers Energy), Middlegrounds Landfill, Dwan property, which was acquired on 1997 through Community Foundation and Natural Resources Trust Fund proceeds, and the former ProTow property on Morton Street, which was acquired in March 2002.

On August 20, 2007, the City approved a five year option with a non profit corporation, RiversEdge Development Corporation, for approximately forty acres of former Bay Aggregates/Industrial Brownhoist property. The City has representation on the RiversEdge Corporation. Additionally, the City approved a two year option with Tall Ship Celebration: Bay City, a Michigan non profit corporation, for the construction of a Maritime Heritage Center on the northerly eight (8) acres of Uptown at RiversEdge property. Both option agreements require the end-users to address the environmental issues in accordance with applicable law. The City may elect to assist through grants, tax financing capture, or other funding sources. Also, the City recently invested \$22,000 for Due Care activities on the Dwan property (fencing and signage). The Dwan property is secured and the public is prohibited from entering the area.

Note 12 - COMMITMENTS AND CONTINGENT LIABILITIES - CONTINUED

The City has incurred approximately \$600,000 in the clean up and remediation of the former Surath scrap yard. It is anticipated that a portion of these costs will be recovered from the sale proceeds. The City has entertained several interested parties in the redevelopment of this property.

The City has spent approximately \$1,500,000 and acquired \$875,000 in grants through the Michigan Department of Environmental Quality to remediate the Middlegrounds Landfill. It is anticipated that significant additional costs will be incurred in the clean-up. Such costs will not be known until the conclusion of the consultant's studies and evaluation. There is an unasserted claim against the City relating to the Middlegrounds Landfill ("Middlegrounds"). The City, General Motors Corporation, and Honeywell International, Inc. may have liability under the Comprehensive Environmental Response, Compensation and Liability Act, as amended, 42 U.S.C. § 9601, et seq. ("CERCLA"), and several other federal and state statutes, in connection with the alleged generation, transportation, storage, treatment, disposal, or release of "Hazardous Substances" at Middlegrounds.

General Motors and Honeywell have informed the City that they have expended \$3 million in cleanup costs for the remediation of Middlegrounds over and above the amounts paid by General Motors, Honeywell, and the City under an interim cost sharing agreement. General Motors and Honeywell anticipate that an additional \$2,500,000 may be expended over the next 30 years to obtain state-approved closure of the site. Under CERCLA, and comparable state statutes, such expenditures may give rise to a claim for contribution by General Motors and Honeywell against the City. If a contribution claim is asserted, the City may be responsible for its proportionate share of such expenditures.

Commitments

The Electric Department, along with other Michigan municipal utilities, is a member of the Michigan Public Power Agency (MPPA). The agency was formed to acquire interests in certain electric generating plants and related transmission lines. MPPA has acquired a 4.8% undivided interest in the Consumers Power Campbell 3 plant and 18.61% undivided interest in the Detroit Edison Company Belle River project. The Electric Department has entered into power supply and project support contracts with MPPA. Under the agreement, the Electric Department will purchase 13.18% of the energy generated by the Campbell 3 plant and 3.71% of the energy generated by the Belle River plant.

Note 12 - COMMITMENTS AND CONTINGENT LIABILITIES - CONTINUED

Commitments - continued

Under the terms of the contract, the Electric Department must make annual payments to cover their share of annual debt service requirements and fixed operation costs of the Campbell 3 and Belle River projects. The estimated annual debt payments with interest included of \$3,328,398 are as follows:

Fiscal Year <u>Ending</u>	Campbell <u>Project</u>	Belle River <u>Project</u>
2009	\$ 428,967	\$ 1,129,196
2010	-	1,129,286
2011	-	1,129,150
2012	-	1,129,255
2013	-	1,129,291
2014-2019	-	7,150,646
	<u>\$ 428,967</u>	<u>\$ 12,796,824</u>

Construction Commitment

The City entered into a construction commitment for various projects associated with our sewer system retention basins in the amount of \$532,000. As of June 30, 2008, \$55,098 was expended and \$476,902 remains on the construction commitment with the contractor.

Other

The City is engaged in other routine litigation incidental to the conduct of its municipal and utilities affairs. In the opinion of legal counsel, no legal proceedings are pending against the City, not covered by insurance, which would inhibit the City's ability to perform its operations or materially affect its financial condition.

Combining and Individual Fund Statements
and Schedules

Nonmajor Governmental Funds

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for revenues derived from specific taxes or other "earmarked" revenue sources. The City of Bay City utilizes the following special revenue funds:

Local Streets Fund

This fund is used to account for local streets maintenance funds received from the State of Michigan.

Fire Awareness Fund

This fund is used to account for monies set aside to educate and train the public on the hazards of fire and fire prevention activities.

Community Policing Fund

This fund is used to account for monies set aside to educate and train the public on crime prevention and to support the Community Policing initiative.

Parking Enforcement Fund

This fund is used to account for activities relative to downtown parking enforcement.

Solid Waste Management Fund

This fund is used to account for all activities relative to sanitation, recycling, and the landfill.

Community Development Block Grant Fund

This fund is used to account for revenues received from the U.S. Department of Housing and Urban Development (H.U.D.) relative to the CDBG program.

Public Improvement Fund

This fund is used to account for monies set aside for public improvement projects.

Building Inspection Fund

This fund is used to account for all activities relative to building inspections and code enforcement services.

Neighborhood Opportunity Fund

This fund is used to account for revenues and expenditures related to acquiring and/or demolishing blighted land and/or structures within specific neighborhoods of the City.

DEBT SERVICE FUND

The Debt Service Fund was created to account for the payments of principal and interest on long-term, general obligation debt other than that payable from special assessments and debt issued for and serviced by a governmental enterprise. In the City of Bay City, this fund provides for the debt service on the 1993 Wastewater and Sewage Refunding Bonds and the 1991 Street Improvement Bonds. All other long-term debt is serviced directly from the fund responsible for the debt, since a debt service fund is not required and financial resources are not being accumulated for principal and interest payments maturing in future years.

CAPITAL PROJECTS FUNDS

Capital Projects Funds are created to account for the financial resources to be used for the acquisition or construction of major capital facilities by a governmental unit, except those financed by special assessment and proprietary funds. The City of Bay City utilizes the following Capital Projects Funds:

Riverfront Redevelopment Fund

This fund is used to account for revenues from EPA grants, other federal, state, and local sources, and City funds for the redevelopment of the City's Downtown Riverfront.

Economic Opportunities Fund

This fund was setup to provide for the complete development of the single-family residential subdivision on the City's south side, between Lincoln and Trumbull Avenues, as well as other projects as they arise.

Nonmajor Enterprise Funds

Enterprise Funds are established to account for the financing of self-supporting municipal activities which render services on a user charge basis to the general public. The significant characteristic of an enterprise fund is that the accounting system allows for the determination of whether the activity is operated at a profit or loss. All accounts of enterprise funds are self-contained, providing a means for creditors, legislators, and the general public to evaluate the performance of the municipal enterprise on a comparable basis with investor-owned enterprises in the same industry. The City of Bay City has the following Nonmajor Enterprise Funds:

Oak Ridge Cemetery Fund

This fund is used to account for the operation and maintenance of a sixty acre cemetery within the City.

James Clements Airport Fund

This fund is used to account for the operation and maintenance of the City's municipal airport facilities.

Liberty Harbor Marina

This fund is used to account for the operation and maintenance of the City's municipal marina facilities.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other governments, on a cost reimbursement basis. The City of Bay City has the following Internal Service Funds:

Motor Equipment Revolving Fund

The fund is used to account for all activities relative to the maintenance and replacement of all City vehicles and large equipment.

Information Systems Fund

This fund accounts for all activities necessary to provide technology services to all City departments.

Liability/Property Self-Insurance Fund

The function of this fund is to provide liability and property insurance to all City departments.

Site Remediation Fund

This fund accounts for the expenditures relative to the cleanup and remediation of the Middlegrounds Landfill.

Benefits Program Fund

This fund accounts for the healthcare, life insurance, workers compensation, unemployment, and retirement benefits provided to all City employees and retirees.

FIDUCIARY FUNDS

Fiduciary Funds are set up to account for the assets held by the government in a trustee capacity for other individuals, governmental entities, and non-public organizations. Use of these funds facilitates the discharge of responsibilities placed upon the City by virtue of law or other authority. In the City of Bay City, the trust funds are used to account for the Police and Fire Retirement System, the expendable trust funds relative to general healthcare and healthcare for Police and Fire personnel and retirees, the Current Tax Collections Agency Fund, and the general Trust and Agency Fund.

COMPONENT UNITS

The Component Units provide economic development and financing services to specific geographic areas within the City limits.

These entities are legally separate from the City. However, they are fiscally dependent on the City because the City Commission is responsible for approving their annual operating budgets and any debt issuance.

All discrete component units are accounted for as governmental fund types. The Component Units within the City of Bay City are: Downtown Development Authority, Midland Street TIFA, Kresge's DDA, Marquette District TIFA, Water Street DDA, Marina Development TIFA, Allen Healthcare DDA, Research Center Development TIFA, Knepp's DDA, Columbus Avenue Management Board, Brownfield Redevelopment Authority, Midland Street Management Board, P.O.W.E.R. Fund, Economic Development Corporation, and Downtown Management Board.

STATISTICAL SECTION

Financial Trends - These schedules contain trend information to help the reader understand how the city's financial performance and well-being have changed over time.

Revenue Capacity - These schedules contain information to help the reader assess the factors affecting the city's ability to generate its property taxes.

Debt Capacity - These schedules present information to help the reader assess the affordability of the city's current levels of outstanding debt and the city's ability to issue additional debt in the future.

Demographic and Economic Information - These schedules offer demographic and economic indicators to help the reader understand the environment within which the city's financial activities take place and to help make comparisons over time and with other governments.

Operating Information - These schedules contain information about the city's operations and resources to help the reader understand how the city's financial information relates to the services the city provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The city implemented Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

(1) Rates reduced to comply with the Headlee Amendment.

(2) This is the year in which the tax is levied. 1999 refers to the 2000 tax collection, 2000 refers to the 2001 tax collection, and so on.

(3) Through 1999, the City levied a millage for Sanitation, which was also affected by the Headlee Amendment and reduced to comply with it. In 2002 (FY 2003), the special levy was for the settlement of the Heather Ridge lawsuit. In 2006 (FY 2007), a credit was issued due to an over-levy of County millage in Winter 2005.

TOTAL DIRECT AND OVERLAPPING DEBT			48,241,483

Sources: Debt outstanding and estimated share of overlapping debt provided by Municipal Advisory Council of Michigan.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Bay City. This process recognizes that, when considering the government's ability to issue and repay long term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL
CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

December 29, 2008

To the Honorable Mayor
and City Commission
City of Bay City, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *City of Bay City, Michigan*, as of and for the year ended June 30, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents, and have issued our report thereon dated December 29, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the *City of Bay City, Michigan's* internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the *City of Bay City, Michigan's* internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the *City of Bay City, Michigan's* internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the *City of Bay City, Michigan's* ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted

accounting principles such that there is more than a remote likelihood that a misstatement of the *City of Bay City, Michigan's* financial statements that is more than inconsequential will not be prevented or detected by the *City of Bay City, Michigan's* internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the *City of Bay City, Michigan's* internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as identified above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the *City of Bay City, Michigan's* financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Audit Committee, management, Mayor and City Commissioners, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink, reading "Lehmann Lohman". The signature is written in a cursive style with a large, prominent 'L' at the beginning.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE
WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND
ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH
OMB CIRCULAR A-133**

December 29, 2008

To the Honorable Mayor
and City Commission
City of Bay City, Michigan

Compliance

We have audited the compliance of the ***City of Bay City, Michigan*** with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. The ***City of Bay City, Michigan***'s major federal programs identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the ***City of Bay City, Michigan***'s management. Our responsibility is to express an opinion of ***City of Bay City, Michigan***'s compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the ***City of Bay City, Michigan***'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the ***City of Bay City, Michigan***'s compliance with those requirements.

In our opinion, the City complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

Internal Control Over Compliance

The management of *City of Bay City, Michigan* is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered *City of Bay City, Michigan's* internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Entity's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the Entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the Entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Audit Committee, management, the governing body, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
